

IBOD
(Smelling Erato) Man, did you take a shower today?

ERATO
On my planet, we don't believe in showers.

IBOD
(Holding his nose) I can tell. Let's go.

ERATO AND IBOD TAKE OFF TO WIN THE RACE.

Space School

INT. INSIDE A SPACESHIP

WIGET, A ROBOT, IS AT THE STEERING CONSOLE WHEN KATIE ENTERS.

KATIE
Excuse me, is this spaceship number seven thousand five hundred and eleven?

WIGET
(In her best robot voice) Affirmative.

KATIE
Great! I've been up and down the loading dock looking for this ship. Oh, excuse me, I'm so rude. My name is Katie.

WIGET
This fact is already knowledge to me.

KATIE
You know you talk kind of funny. What are you, some kind of robot?

WIGET
Affirmative. I am a model XL-6400.

KATIE
Cool. I've never met a robot before.

WIGET
(Getting excited) Ooo, my sensors tell me it is now eleven o'clock. Your first flying lesson will now begin.

KATIE
Out of sight. Where do I sit?

WIGET
This is the steering console. Please place yourself behind it.

KATIE
(Sitting) Wow, look at all these buttons. There must be almost a thousand of them.

WIGET
Eleven hundred and eighty. But don't worry, you don't have to memorize them all on your first day. Now before we start do you have any questions?

Sensational Comedic Scenes: (Two Kids)

KATIE

Yeah. What is this big red button here?

KATIE PUSHES THE BUTTON. THE SPACESHIP TAKES OFF AT THE SPEED OF LIGHT.

WIGET

Ahhhhhh!!! Help we are going to die!!!!

KATIE

(Trying to steer the ship) Oh no!!! Help!!!!!

WIGET REACHES OVER AND PUSHES THE BUTTON. THE SHIP STOPS.

KATIE (cont'd)

(Hugging Wiget) Thank you, thank you, you've saved my life.

WIGET

Actually, I was playing a joke on you. The best thing about the XL-6400's is we have a sense of humor.

KATIE

It wasn't all that funny.

WIGET

(Laughing) You should have seen your face.

KATIE

Whatever. Can we start my lesson now?

WIGET

Affirmative. Okay, the first thing you need to remember is never, ever, ever push this blue button.

WIGET POINTS TO THE BLUE BUTTON.

KATIE

You're just saying that because you want me to push it.

WIGET

Actually, the chances of you pushing it are seven thousand and forty-three to one. Which means that you have learned your lesson. And you will never disobey me ever again.

KATIE

Oh, yeah? So you think you know everything?

WIGET

I am an XL-6400.

Sensational Comedic Scenes: (Two Kids)

KATIE

(Pushing the button) Then did you know I was going to do this?

THE SHIP STARTS TO SHAKE.

WIGET

You shouldn't have done that.

KATIE

Why?

WIGET

Because in ten seconds, you are going to be ejected from your seat.

KATIE

Sure I am. I'm not falling for that again.

KATIE IS EJECTED FROM HER SEAT!

WIGET

How come humans never listen?
