

## Space Race

### EXT. A RACE TRACK

THE 23RD CENTURY. ERATO IS IN HIS SPACESHIP WHEN IBOD PULLS UP IN HIS NEW AR93.

IBOD

Hey, sucker. Are you ready to lose today?

ERATO

Oh, no! Don't tell me you're in this race, too.

IBOD

Erato, you don't stand a chance. Last week I got a new hyper-drive on this baby. She can go from zero to one million in three seconds.

ERATO

Sounds like you got a hyper-drive for your mouth, too.

IBOD

Yeah, we'll see who's so smart when I win this race and become the pod champion of the galaxy.

ERATO

Yeah, right. That will never happen.

IBOD

Look, here comes the guy with the starting pistol. See you at the finish line, sucker.

BOTH

Three! Two. One. Blast off!

BOTH SPACESHIPS DON'T MOVE.

ERATO

What happened?

IBOD

Come on you piece of junk. Go!!!!

ERATO

(Looking at his gauge) Out of fuel?  
How can I be out of fuel?

IBOD

Maybe somebody emptied your uranium tank.

ERATO

What!? You're a scum!

IBOD

(Looking at his dashboard) How come my hyper-drive isn't working?

ERATO

(Holding up a wire) Maybe somebody stole your plutonium cable!

IBOD

(Jumping out of his ship) Give it to me.

ERATO

Not till you give me back my uranium.

IBOD

I can't. I put it in my tank.

ERATO

Then no plutonium cable.

IBOD

Okay. Okay. Look, how about if we team up.

ERATO

With you? Never!

IBOD

Then you're going to lose. We both can ride in my ship since it's already full of fuel.

ERATO

Which you stole.

IBOD

Come on, let's team up?

ERATO

But who gets to fly?

IBOD

Me. It's my ship.

ERATO

Then forget it.

IBOD

Okay. We'll both fly.

ERATO

(Handing him the cable as he gets in the cockpit)  
I've always wanted to fly one of these babies.

IBOD

(Smelling Erato) Man, did you take a shower today?

ERATO

On my planet, we don't believe in showers.

IBOD

(Holding his nose) I can tell. Let's go.

ERATO AND IBOD TAKE OFF TO WIN THE RACE.

INT. INSIDE A SPACESHIP

WIGET, A ROBOT, IS AT THE STEERING CONSOLE WHEN KATIE ENTERS.

KATIE

Excuse me, is this spaceship number seven thousand five hundred and eleven?

WIGET

(In her best robot voice) Affirmative.

KATIE

Great! I've been up and down the loading dock looking for this ship. Oh, excuse me, I'm so rude. My name is Katie.

WIGET

This fact is already knowledge to me.

KATIE

You know you talk kind of funny. What are you, some kind of robot?

WIGET

Affirmative. I am a model XL-6400.

KATIE

Cool. I've never met a robot before.

WIGET

(Getting excited) Ooo, my sensors tell me it is now eleven o'clock. Your first flying lesson will now begin.

KATIE

Out of sight. Where do I sit?

WIGET

This is the steering console. Please place yourself behind it.

KATIE

(Sitting) Wow, look at all these buttons. There must be almost a thousand of them.

WIGET

Eleven hundred and eighty. But don't worry, you don't have to memorize them all on your first day. Now before we start do you have any questions?
